Public Hearings

NOTICE OF PUBLIC HEARING
LIBRARY BUDGET ADOPTION FY 2020
SEPTEMBER 5, 2019

North Valley Public Library District Board of Trustees will complete the final budget for fiscal year July 1, 2019 - June 30, 2020 at the August 21, 2019 board meeting. **The Board will hold a public hearing on the final budget on Thursday, September 5, 2019, at 3:15PM, at which time the Board will take comment, then adopt the final budget.** Any taxpayer or resident of the Library District may appear for or against any part of the budget. A copy of the budget is available at the Library. This public hearing will be held in the Library Community Room at 208 Main St., Stevensville. If you have any questions, please feel free to call the Library Director Denise Ard at 777-5061.

NOTICE OF PUBLIC HEARING
FOR PERMISSIVE MEDICAL LEVY
SEPTEMBER 5, 2019

North Valley Public Library District Board of Trustees will hold a public hearing on Thursday, **September 5, 2019 at 3PM** in the Library Community Room at 208 Main St., Stevensville. The purpose of this hearing is to take public comment and pass a Resolution regarding the proposed permissive medical levy for health care premium increases for Fiscal Year 2020. If you have any questions, please feel free to call the Library Director Denise Ard at 777-5061

More Books for Kids

Youth Services Director Annika Riley opens the boxes full of new books for children.

The North Valley Public Library is the proud recipient of a Pilcrow Rural Public Library grant!

The **Pilcrow Foundation** recognizes the importance of libraries in rural communities and supports their mission of providing quality hardcover books to rural libraries through Children's Book Project grants.

The grant requires that the Library raise base monies through a local sponsor. **Rocky Mountain Bank** stepped up and donated the maximum base money - \$400 – so the **North Valley Public Library Foundation** could apply for the

grant. This base money is tripled in value if the grant is awarded. So, the Library was able to procure \$1200 worth of new children's books from the Pilcrow catalog.

The books have arrived. Of the 75 books, 72% are for EARLY and BEGINNING READERS (birth to 7 years), while 28% are MIDDLE and INTERMEDIATE to ADVANCED READERS (ages 7-12 years).

Annika Riley, our Youth Services Director, is in the process of cataloguing the books. Once catalogued, they will be placed temporarily on separate shelving so patrons can readily review the new inventory.

We wish to thank the Rocky Mountain Bank, the Pilcrow Foundation and the NVPL Foundation for their contributions to these great new books for our children!

BOOK NEWS

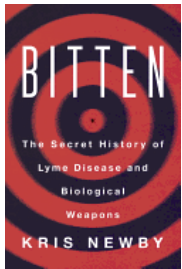

Read Alikes: Cussler, Clancy & Campbell

Fans of **Clive Cussler** and **Tom Clancy** may enjoy reading author **Rick Campbell**. The library recently purchased all five of his books in print and audiobook: *Trident Deception*, *Empire Rising*, *Ice Station Nautilus*, *Blackmail*, and *Treason*.

Campbell, a Naval Commander, served on four nuclear-powered submarines. Upon retirement from the Navy, Rick was signed by Macmillan / St. Martin's Press for his novel - *The Trident Deception*, which was hailed by Booklist as "The best submarine novel since Tom Clancy's classic - *The Hunt for Red October*."

Hot Science Reads

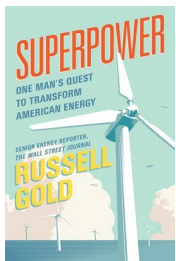

Bitten: The Secret History of Lyme Disease and Biological Weapons by Kris Newby

A riveting true story thriller reminiscent of the Hot Zone. 300,000 Americans are afflicted with Lyme disease each year, and many are undiagnosed.

Why is Lyme difficult to both diagnose and treat? Why is the government so reluctant to classify chronic Lyme as a disease?

A gripping, infectious page-turner, *Bitten* will shed a terrifying new light on an epidemic that is exacting an incalculable toll on us, upending much of what we believe we know about it.

Superpower: One Man's Quest to Transform American Energy

by Russell Gold

"Russell Gold is among the most

thoughtful writers on energy, and while this compelling book is about one man's battle to remake America's power grid, it's also a fascinating contemplation of renewable energy in America." --Bethany McLean, author of *The Smartest Guys in the Room: The Amazing Rise and Scandalous Fall of Enron*

Russell Gold tells the story of this pioneer whose innovations, struggles, and persistence represent the groundbreaking changes underway in American energy...Thrilling, provocative, and important, *Superpower* is a fascinating look at America's future.

Kid's Corner

Early Literacy Tip

Make associations between ideas, words, and pictures.

While this strategy digresses from the storyline a little bit, pausing to make associations will help your child with word retrieval. Older toddlers may be more linguistic, but seemingly lack the words to get their ideas out fluidly. When we stop and identify things on the page and associate them with other things the child knows, we make retrieval easier. For example, you can identify that a cow and zebra are both black and white. Or, you can ask if a butterfly and an ant are both bugs. By categorizing, linking, and elaborating on concepts, we will slowly make it easier for our child to identify what they want to say. Source: parentingfromtheheartblog.com

Kid's Book Review

The Market Square Dog by James Herriot

Lyle M., age 7

I gave this book 5/5 stars because the market square dog was a true story. The vet helped the dog get better and the dog lived with the kids.

The mission of the North Valley Public Library is to strengthen and support our community by:

- fostering a welcoming and comfortable setting for all people to gather, explore, and discover;
- promoting literacy and lifelong learning;
- providing exemplary programming, service, and quality, timely materials.

Space Telescope & Rockets

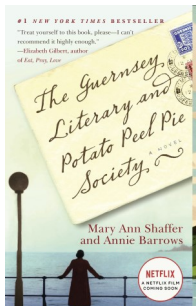

Thursday, August 1 at 5:30 pm

Dean Spieth presents an overview of intercontinental ballistic missiles (ICBMs), large launch vehicles (Saturn-Apollo moon rockets, Falcon), and space telescopes.

Space telescopes, like DSP and

SBIRS, provide early warning of rocket launches all over the earth. Other space telescopes are used to monitor the earth's environment (weather satellites, ozone, fire, etc.) or view into deep space like the Hubble Space Telescope (HST).

Dean worked with rockets, satellites, and space telescopes for forty years, first at the Rocket Propulsion Lab on Edwards AFB (today part of AFRL), then in the Denver area primarily at Martin Marietta (today part of Lockheed-Martin) and Ball Aerospace. All content is unclassified approved for public release. This presentation is suitable for teenagers and adults.

Book Club

Tuesday, August 13 at 10:45 am

Join members of the book club to discuss this month's selection:

***Guernsey Literary and Potato Peel Pie Society* by Mary Ann Shaffer and Ann Barrows**
